Freeman article has wrong insurance info

Today's article (May 2nd) in the *Daily Freeman* on the proposed CSEA Memorandum of Agreement contains some inaccurate information regarding health insurance premium contributions.

Despite what the article says, the proposed MOA includes **ABSOLUTELY NO INCREASES** in premium contributions. The amount you contribute toward your health insurance **WILL NOT** be going up. The info printed in the article was wrong.

We understand that this was upsetting information to read, but it is completely inaccurate. We do not know how the *Freeman* obtained this information, but we are working to ensure they print a correction as soon as possible. Please share this important information with your fellow CSEA members, if you are able. We regret that the sharing of this incorrect information has caused any upset.

Your CSEA Negotiating Committee has worked extremely hard to get you as fair a contract as possible – we look forward to having copies of the Memorandum of Agreement in your hands for review as soon as possible.
